In the intricate tapestry of existence, one prevailing theme weaves its way through our perceptions and experience – **DUALITY**. The concept of duality encapsulates the inherent contradictions and opposing forces that coexist within us and the world around us. It is a profound reminder that life is not defined by absolutes, but rather by a delicate balance between opposing elements.

Tonight's program includes performances from the Waubonsie Valley Percussion Ensemble, World Beat, Steelband, the percussion sections from each of our five concert bands, and our special guests, the Fischer Middle School Percussion Ensemble. We hope you enjoy the program and performances!
